MAURIZIO MANSUETI

BIO

ErMan

Maurizio Mansueti [ErMan]:
Electronic musician and experimental artist.
(see full details in italian here @ wikipedia
http://it.wikipedia.org/wiki/Maurizio_Mansueti)

Deep expert of music and b-movies, dj preparation, cyber-technologist and cultural activist since the 80ies. His principal interest is the relationship between Music and Technology.

ErMan is the band leader of The Transistors. With the Transistors, his work as musician and sound designer is at the base of projects where vintage, modern electronics and sound engineering became the ideal match to experiment new sounds in pop field and in experimental field.

He was among the first artists in Italy from 1999 to re-evaluate the Theremin, a very special musical "vintage" instrument that is played by moving the hands around a "sound spectrum" and therefore invisible and "magic".

In 2009, he released the solo album "Theremin, the way I feel", dedicated to the invention of Leon Theremin and published as "Timeless Sonic Factory". Since 2011 ErMan collaborates with Alessandra Celletti (pianist) (Transparency Rec). The second album "Carnival of Seduction" (2013) carries on the experience experimenting Theremin instrument in contemporary music.

As journalist he had the honor to interview Bob Moog, Dick Hyman, Kraftwerk, Bob Thompson, Goblin and other icons of experimenters in music art field.

PROJECTS:

TIMELESS SONIC FACTORY: a project dedicated to Theremins, analog synthesizers as Moog instruments, and new music toys as the lovely TENORI-ON by Yamaha. It is a music-art project where ErMan translates his artistic influences in music.

THE TRANSISTORS: The Transistors is an artistic project since 1996: prime-movers of Space Age Bachelor Pad Music and neo-exotica music and pioneers of the cocktail / lounge international scene since the 90'ies. The Transistors are music and technology applied to the Art world. ErMan is the founder member of The Transistors as composer, arranger and he plays keyboards, electronics and theremins.

UTOPIA RESEARCH: this project introduces the listener to an electronic world where new mobile-technologies follow a new code, transforming ErMan's way of communicate his own art.
